Procedural Issues

Answer

Generally, defendants must file an Answer (1) within 30 days of service in Circuit Court, (2) within 14 days of service in District Court, and (3) within 20 days of service in Federal Court.

Removal

In order to remove a case to Federal Court, (1) complete diversity of citizenship must exist with an amount in controversy equal or greater to \$75,000, or (2) the plaintiff's complaint must include claims involving a "Federal Question." A notice of removal must be filed within 30 days after service of the complaint.

Venue

Actions against individuals must be brought either in the county where they reside or the county where the act or omission occurred. Actions against non-resident individuals may be brought in either the county where the individual is served or where the act or omission occurred. Actions against corporations may be brought either where the act or omission occurred, where the corporation's principal office in the state is located, or in the county where the plaintiff resides if the corporation does business by agent in the county. Some counties in Alabama have multiple courthouses—in those areas, separate divisions are treated as different venues.

Forum Non Conveniens

The trial court must transfer a case from one proper venue to another either for the convenience of the parties or in the "interests of justice." Caselaw shows courts are often compelled to transfer a case to the county where the act or omission occurred.
