

WEBINAR

# QUARANTINE QUANDARIES:

TIPS FOR NAVIGATING COVID-19 AND  
WORKERS' COMPENSATION

TUESDAY • AUG 25 • 2020  
1-2 P.M. EASTERN

As with any workers' compensation claim, the employee must prove a causal connection between contracting the coronavirus and their employment in order to receive workers' compensation benefits. While some essential workers are at higher risk of infection, the burden of proof the State Board will apply here is not yet clear.

This webinar will address factors to consider in deciding whether an employee's coronavirus infection is work related in accordance with Georgia Board Rules and statutes. Rusty Watts and Katherine Jensen will also discuss how other states and the federal government have amended their rules to deal with the pandemic.

PRESENTED BY  
ATTORNEYS:

RUSTY WATTS

KATHERINE JENSEN
