

WEBINAR

SHOULD I STAY OR SHOULD I GO?

WORKING FROM HOME AND TRAVELING FOR WORK

THURSDAY • SEPT. 24 • 2020 | 1-2 P.M. EASTERN

The rise of technology, coupled with global health conditions, brings the rise of flexible work environments. Though an appealing benefit to employees, it can leave employers vulnerable to workers' compensation claims. This webinar will educate attendees on Georgia law and safeguard against future claims during an age when it is crucial employers and insurance carriers understand the implications of non-traditional work environments.
