FOR CONSTRUCTION DEFECT CLAIMS

WEDNESDAY • SEPT. 16 • 2020  
1-2 P.M. EASTERN

Whether a construction defect claim is covered under the standard Commercial General Liability (CGL) insurance policy is one of the most frequently litigated coverage issues. The outcome is fact intensive and dependent on which state's law applies to the particular claim. This webinar will provide guidance for claims professionals to identify and determine coverage issues for construction defect claims.
